

## National Recovery Agency Announces the Successful Completion of SSAE 16 Compliance Audit

Harrisburg, PA, August 3, 2011 - National Recovery Agency (NRA), an industry-leading accounts receivable management company, announced today it has achieved **Type II SSAE 16 compliance**. The successful completion of this internationally recognized third-party assurance audit confirms that the company's controls, procedures, and processes are in place as intended.

"As an organization, we recognize that we have a responsibility to our clients," Steve Kusic, President. "We are always looking for ways to improve our systems and processes to ensure the highest levels of security and confidence."

The SSAE 16 (Statement on Standards for Attestation Engagements No. 16) is the new operating standard replacing the widely recognized SAS 70 audit. SSAE 16, seen as more comprehensive and expansive than SAS 70, goes beyond the prior audits requirements to include a description of both a service organization's controls and systems, as well as a written assertion by management.
